### **DETAILED ACTION**

This action is in response to amendments filed on 22 January 2009.

#### ***Drawings***

The drawings were received on 22 January 2009. These drawings are accepted.

#### ***Allowable Subject Matter***

Claims 20-36, 38 and 39 are allowed.

The following is an examiner's statement of reasons for allowance: The claims in the application are deemed to be directed to a nonobvious improvement over the state of the art in gas leak detectors for high-vacuum pumps as taught by, for example, Pat. No. 7,082,813 to Grosse-Bley et al. As persuasively argued by the applicant, the claims comprise outlet connection ports directed to the backing pump and test gas line, separately, helping reduce the gas detection response time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

Applicant's arguments filed 22 January 2009, with respect to the rejections in view of the reference to Menninges have been fully considered and are persuasive. The rejections of claims 20-36, 38 and 39 have been withdrawn.

***Conclusion***
